FRIENDS BY TER HÜRNE

Outside freedom, inside Hywood Friends!

You want the warmth and naturalness of wood, but also a floor that keeps up with your everyday life? That is exactly what Hywood Friends is for – the real wood hybrid floor. Hybrid? It is not a classic parquet floor and neither is it a design floor. It is something new: real, robust and future-oriented.

With the lacquered EVO surface Hywood Friends remains easy to care for and – resistant to scratches, water and minor mishaps. Thanks to the clever click connection it is easy to install – quickly, securely and no stress.

You can choose from six modern oak designs that not only look good but also are sustainably produced and certified by independent institutes. Free of harmful substances, healthy for the home and therefore a good decision for you – and for the environment.

Hywood Friends is the floor for everyone who appreciates naturalness, lives consciously and embraces new experiences. Real wood, real durability – real Hywood Friends.

HIGHLY DURABLE

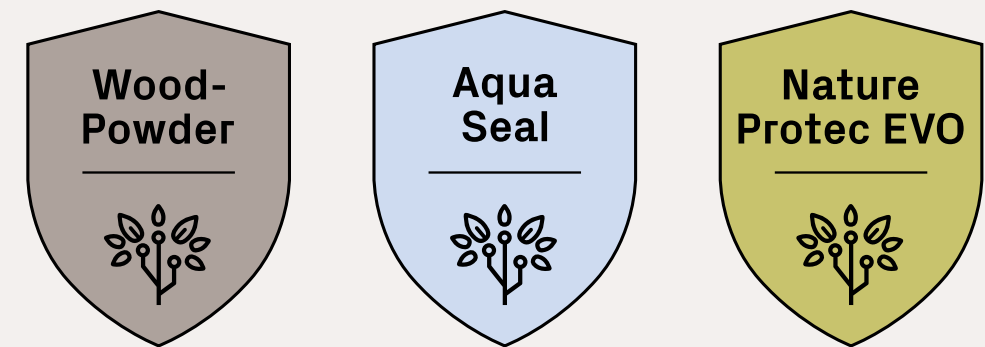

3 strong heroes – 4-fold protection

Will your floor be used as a playground or a dance floor? Hywood Friends can handle almost anything and is highly resistant, thanks to its three protective heroes. Their names: Wood Powder, Aqua Seal and Nature Protec!

In daily life, the floor is exposed to many potential hazards: Animal claws or children's toys can cause scratches. Falling objects, chair castors and heavy furniture can sometimes cause pressure marks. Dirt accumulates in pores and grooves. And most importantly, there is the risk of moisture damage from liquids if a glass of water falls off the table or from spills when watering the plants.

We offer special protection against these risks. For Hywood Friends, we use three innovative and intelligent technologies, each of which provides a high level of resistance. The special feature: When combined, their effectiveness is increased even further. We call that highly resistant. And that is exactly what our three protective heroes stand for. They provide maximum resistance: against water penetration, scratches and pressure marks as well as adherent dirt and stains.

This means you can carry on playing and dancing and still stay relaxed when living your life on your floor.

3 protection heroes against 4 dangers

MY VIRTUAL FLOOR

My Room Studio

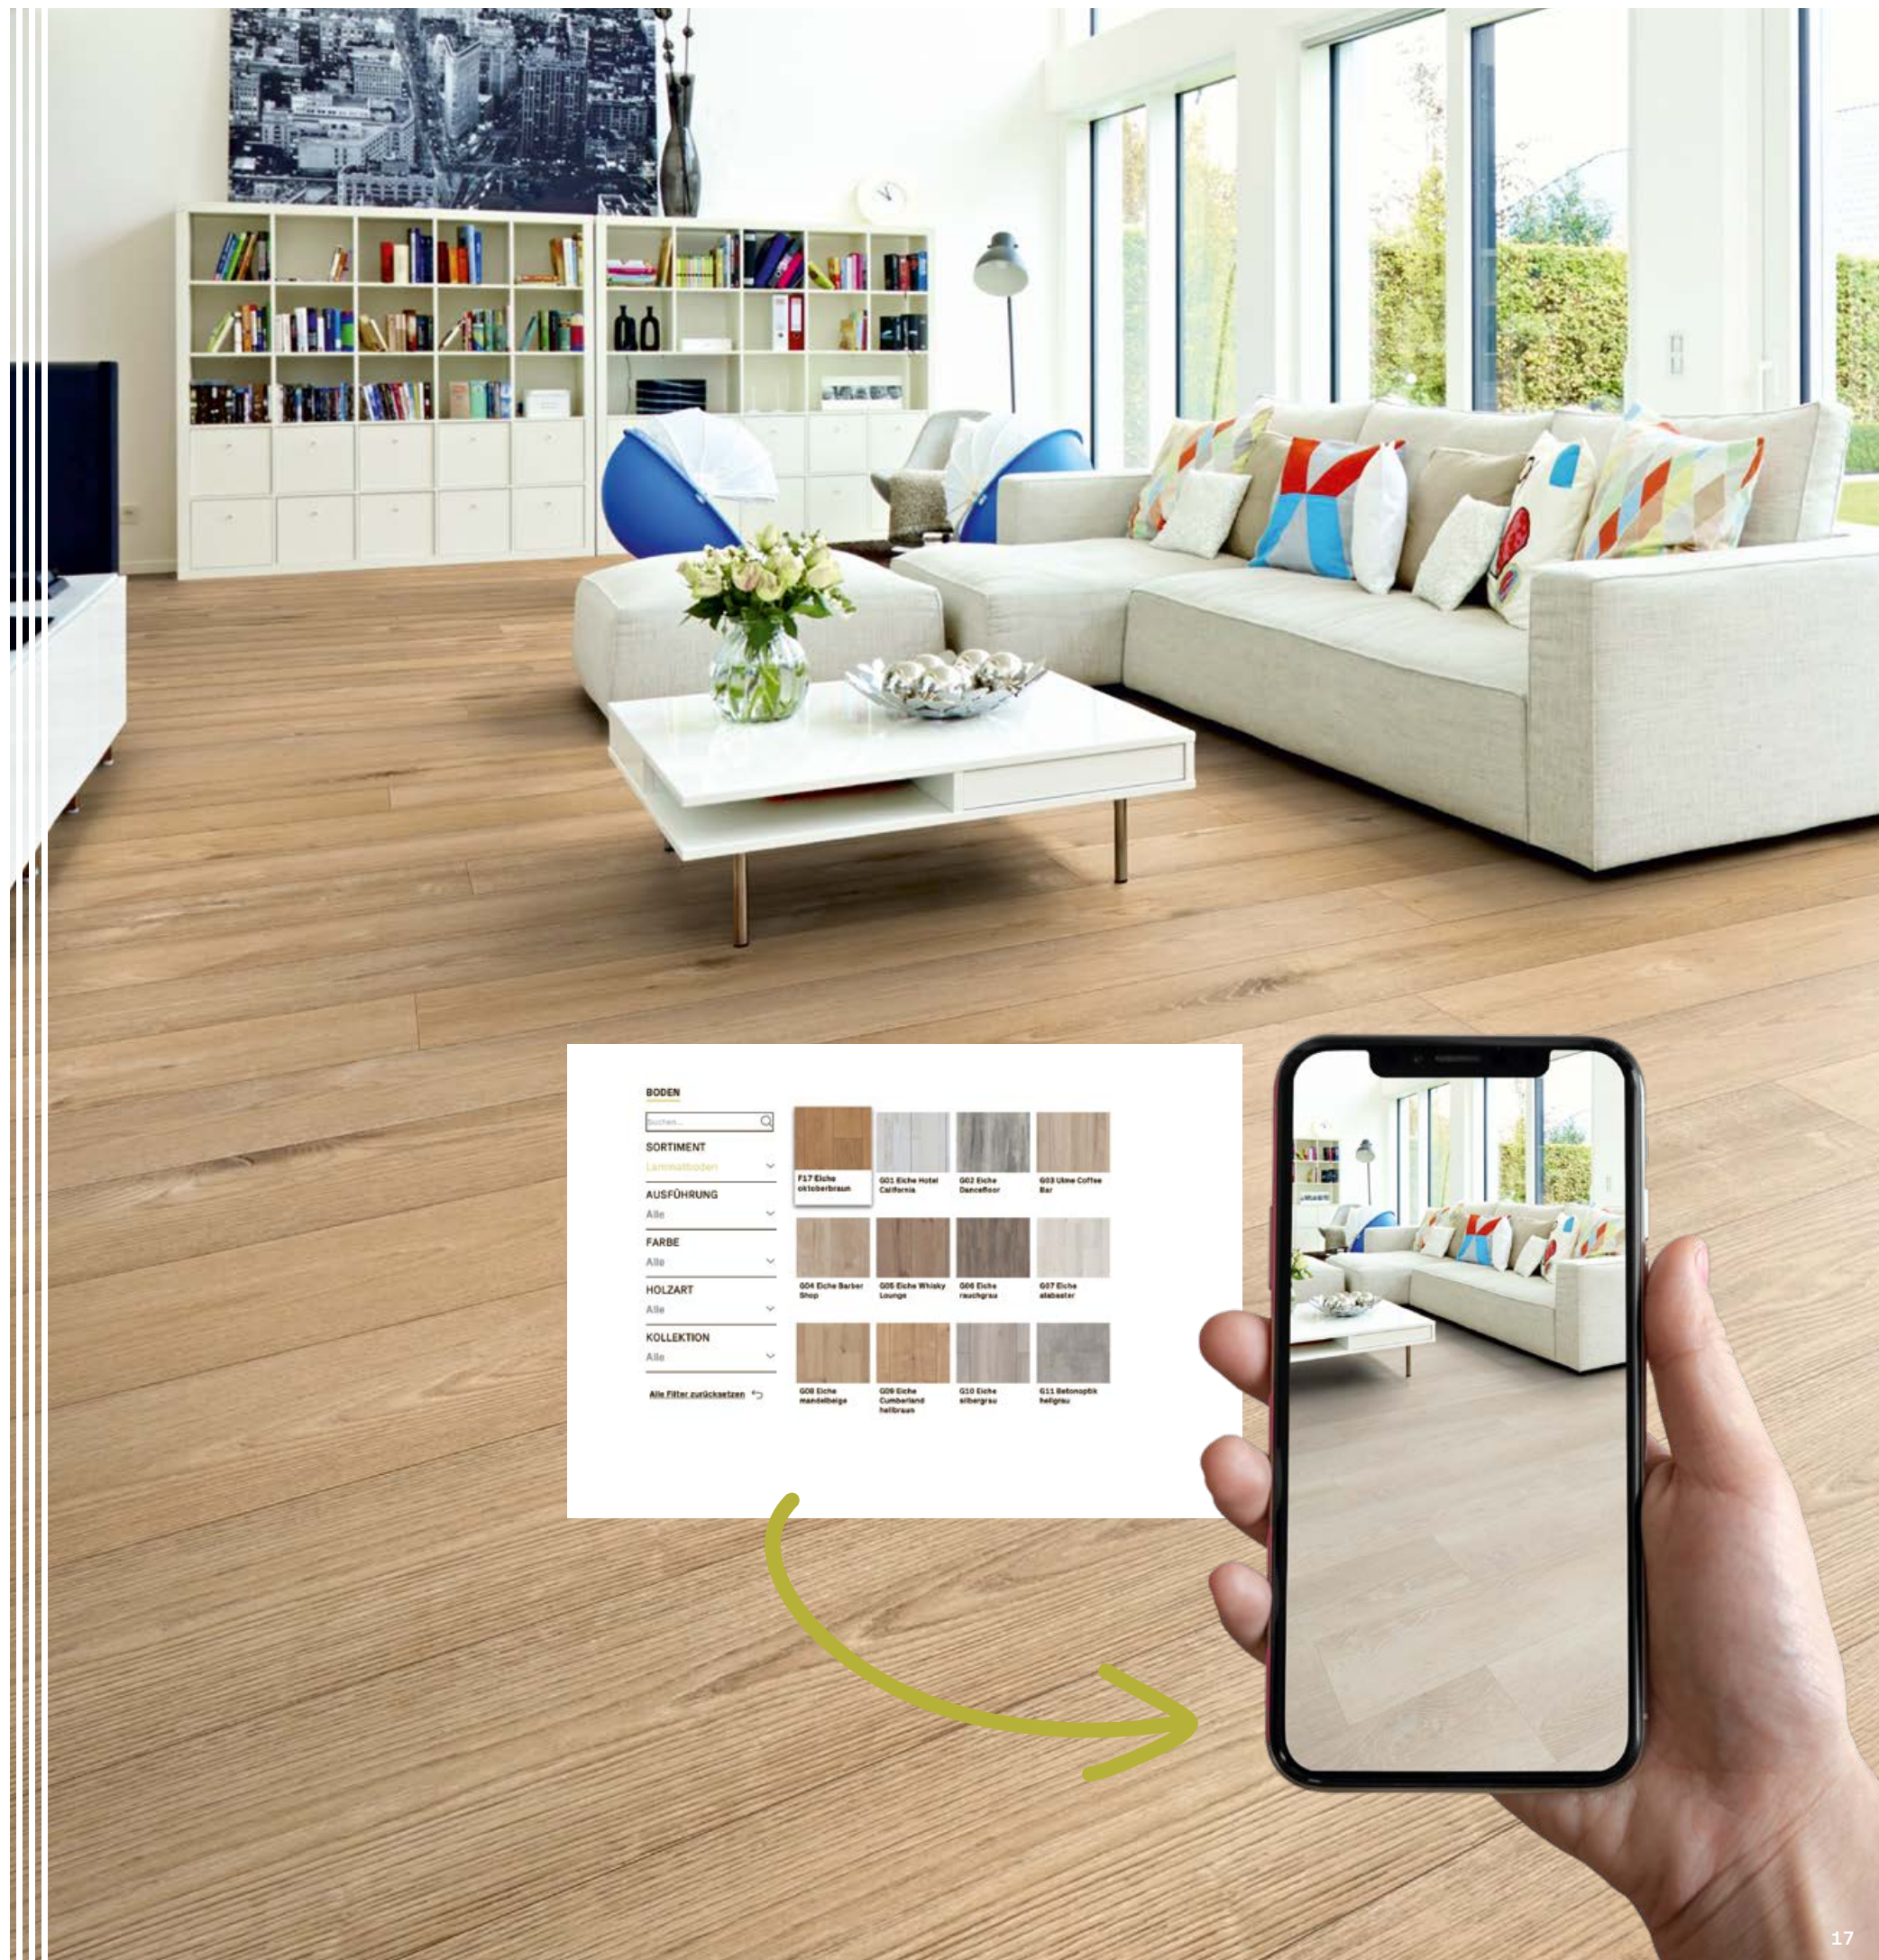

With our virtual Room Studio you can view all of our floors in your own home. Here and now. Just use your smartphone. As soon as you are in the Room Studio you have two options:

- 1 You can either take a picture of your room with your smartphone and select your preferred floor, which you lay virtually.
- 2 Or you can select room images from our gallery and virtually lay your preferred floor there.

With our virtual Room Studio you can look at all of our floors in the comfort of your own home either on your laptop, tablet or desktop computer. Due to the size of the display, this is sometimes the better alternative. Just click on the "Room Studio" button on the right-hand side of the screen.

Insert your own room photo, take out the old floor and experience the new floor in your own room!
